| Diplomová práce je řešením teoretického nebo praktického problému s uvedením dosažených výsledků. Součástí řešení může být i zhotovený funkční vzorek projektovaného zařízení nebo jeho části.                                                                                                               |                 |               |                             |            |
| Předmět Diplomová práce vytváří institucionální rámec pro konzultace studenta s vedoucím a konzultantem diplomové práce v průběhu jejího řešení. Student průběžně předkládá své výsledky vedoucímu a na základě jeho připomínek a v diskusi s ním a případným konzultantem pokračuje v plnění zadaných cílů. |                 |               |                             |            |
|                                                                                                                                                                                                                                                                                                              |                 |               |                             |            |
